ABOUT MYSELF

I am a self taught frontend developer pursuing my major in computer science with honors in cloud computing. I love solving problems and create solutions using my skillset and I am always ready to challenge my limits

SKILLS

- JavaScript, Python, C, C++, HTML and CSS
- React.js
- Frontend libraries and UI frameworks (Material UI, Bootstrap)
- REST API with Node.js and express.js
- Git and GitHub
- Basic cognizance of AWS and Azure Cloud

PROJECTS

GOOGLE DRIVE CLONE [ArnavGuptaaa/google-drive-clone](#)

- Cloned the Google Drive UI using React.js and Material UI
- Implemented the authentication system on the frontend by integrating the API from the backend

GRE PREPPER [ArnavGuptaaa/GRE-Prepper](#)

- Google chrome extension which allows the user to have a glance at high frequency GRE words as they browse
- Developed using React.js
