ABOUT MYSELF

Full stack web-developer with experience in building frontend with React.js and REST APIs with Node.js framework like Express.js. Adept in designing websites with CSS frameworks like Bootstrap and Tailwind CSS.

PROJECTS

FULLSTACK-NOTES

[ArnavGuptaaa/fullstack-notesapp](#)

- Developed a full stack notes app which used React.js and Tailwind CSS for the frontend and Node.js, Express.js and Mongo DB on the backend
- Used state context API to manage the state of the frontend
- Developed API for performing CRUD operations and User authentication

GOOGLE DRIVE CLONE

[ArnavGuptaaa/google-drive-clone](#)

- Cloned the Google Drive UI using React.js and Material UI.
- The project uses the Azure cloud SDK for node.js to employ Azure cloud services such as Azure blob storage and cosmos DB for mongo DB API.
- Implemented the authentication system on the frontend by integrating the API from the backend.

GRE PREPPER

[ArnavGuptaaa/GRE-Prepper](#)

- Developed a Google chrome extension which allows the user to have a glance at high frequency GRE words as they browse the net.
- Developed using React.js.

EDUCATION

2019 - 2023

SYMBIOSIS INSTITUTE OF TECHNOLOGY

B-Tech In
Computer Science

- Specializing in **Cloud Computing** and **blockchain**
- CGPA : 7.8

CERTIFICATIONS

SOFTWARE PROCESSES AND AGILE PRACTICES

UNIVERSITY OF ALBERTA, COURSERA

SKILLS

- JavaScript, Python, C, C++
- HTML and CSS and JavaScript
- React.js Frontend Library
- React UI frameworks (Material UI, Bootstrap and Tailwind CSS)
- Node.js REST API with backend framework such as Express.js
- Databases such as CosmosDB, MongoDB and MySQL
- Deployment on Azure and AWS cloud services
